Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to claims 1 and 4, the phrase "entrance/exit" is improper and should be removed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Pohlman #3,908,801. Pohlman discloses an elevator assembly comprised of hanging racks 64, pulleys 62, ropes/cables 60, retaining rollers 52, 54, escape case 10, bottom edge 40, 44, and pivoting brake assembly 96, having a brake line 100 attached to a levers 102.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pohlman as advanced above. Pohlman fails to disclose cylindrical tracks. The cross section of the track is an obvious design choice not expected to produce any new and unexpected results. Therefore, to one of ordinary skill in the art, it would have been obvious to provide the assembly of Pohlman with cylindrical tracks as a matter of design choice, not expected to produce any new and unexpected results.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hershtik #5,927,432, Edwards #6,640,934, Kucher et al #4,640,384, Crump #4,469,198, Littlejohn et al #4,406,351, Reed #4,386,680, Meyer #3,517,774, Buschbom et al #3,887,038, Evans et al #6,676,233, and Goto et al #5,564,528, are cited to teach building mounted lift assemblies.
